Killarney National Park Education Centre

Ionad Oideachais Pháirc Náisiúnta Chill Airne

The Killarney National Park Education Centre is an educational facility, based within the Killarney National Park which offers high quality, field ecology courses to a wide range of people.

While operating as an independent entity, the centre runs under the joint auspices of The National Parks and Wildlife Service & Kerry Education Service. The mission statement of the Centre is "To run educational courses and activities within Killarney National Park that will promote knowledge, understanding, enjoyment and appreciation of the natural environment for all".

Our ethos is based very much on a hands-on approach to learning about nature, and it is hoped that through this everyone visiting the centre will become more aware of the value of our environment and the need for conservation.

We work with groups from all backgrounds, of all abilities and of all ages, including primary schools, post primary schools, third level institutions, corporate groups, teachers, tour groups, youth groups, special interest groups and many more.

## Primary Schools

Our Primary School Nature Day makes for an ideal school tour. The class participate in a wide range of nature activities which are all linked to SESE.

## Post-Primary Schools

A complete range of fully guided field studies courses is available for post-primary schools. All fulfil curricula requirements. Examples of courses on offer include:

Please contact us if you or your group has any special requirements as we are constantly “tailoring” courses to suit specific needs and requirements of groups and individuals. The cost of a course will depend on the number of people in the group and duration of the course.

Hostel accommodation (self-catering) is available for the use of groups who are visiting the National Park and are availing of services offered by the Education Centre.
